A LITTLE HEADSUP FROM LUNA...THE MOMENT HAS ARRIVED!

### 2-ALBUM RELEASE

After somewhat of a hiatus, I have accumulated quite a few songs - in my mother tongue and in English. After an introspective period during the pandemic, and a lot of unavoidable observations due to global events and the explosion of the digital era - I have found the songs vary between more intimate and introspective themes about man vs nature; but also more provocative themes addressing the dualistic nature of the self in relation to others. The Afrikaans album seems to lean towards the more introspective, whilst the English album has a bolder onslaught (thematically and musically) - which is quite exciting to me.

A NEW  
ADVENTURE  
AWAITS

## 10-12 years later

It's been 10 years since I've released an English album. It's been even longer (12 years) that I've released an Afrikaans album. A lot has changed since then. The music business has been turned on its head and I find myself quite challenged in navigating my way through all of these changes. I sincerely hope you will join me on this new adventure. All of you receiving this email have in some way contributed to my journey over the past 10 years. Your support has served me well. More than you can imagine! I sincerely want to thank you for that.
